

IF YOU HANDLE ANY OF THESE 72 GASES....

Air	Cyclohexane	Helium	Neon
Allene	Cyclopropane	n-Heptane	Nitrogen
Ammonia	Deuterium	n-Hexane	Nitrogen Dioxide
Argon	Dibromodifluoromethane	Hydrogen	Nitrous Oxide
Benzene	Dichlorodifluoromethane	Hydrogen Chloride	Oxygen
Bromotrifluoromethane	Dichlorofluoromethane	Hydrogen Sulfide	Ozone
Butadiene	1,2 Dichlorotetra- fluoroethane	Isobutane	n-Octane
Butane	1,1 Difluoro 1- Chloroethane	Isobutene	n-Pentane
Carbon Dioxide	Dimethylamine	Isobutylene	Propane
Carbon Monoxide	Dimethyl Ether	Isopentane	Propylene
Carbon Tetrachloride	2,2 Dimethylpropane	Methane	Refrigerants
Carbon Tetrafluoride	Ethane	Methanol	Sulfur Dioxide
CFC's	Ethyl Alcohol	Methyl Acetylene	Sulfur Hexafluoride
Chlorine	Ethyl Chloride	Methyl Acetylene Propadiene	Trichloroethane
Chlorodifluoromethane	Ethylene	Methyl Chloride	Tetrafluorethylene
Chloroform	Ethylene Oxide	Methyl Mercaptan	Trimethylamine
Chlorotrifluoroethylene	HCFC's	Monoethylamine	Vinyl Chloride
Chlorotrifluoromethane		Natural Gas	Xenon
Cyanogen		and other gases

...IN ANY OF THESE TEN APPLICATIONS...

- Vapor Recovery
 - Gas Gathering
 - Gas Transfer
 - Gas Evacuation
 - Enhanced Recovery
 - Gas Blanketing
 - Pressure Boosting
 - Flare Elimination
 - Leak Test Recovery
 - Liquid Gas Transfer
- ... and Other Applications

Ph: 616-241-1611 fax: 616-241-3752 www.blackmer.com

FOR OIL-FREE DELIVERY OF INDUSTRIAL GASES ...THERE'S ONLY ONE GAS COMPRESSOR TO SPECIFY: BLACKMER

Whether Simple or Complex, Blackmer Has the Single Best Solution for Your Application.

The proof is in the field. Recently, we've developed compressor systems to recover natural gas from well heads in China, CO₂ from process plants in Mexico, and refrigerant recovery in application from California to Puerto Rico. Then there's pressure boosting systems for gas pipelines and specialized carbon dioxide transfer systems with pump/compressor combinations for railcar unloading...to name just a few.

Blackmer - An Engineering Leader in Industrial Gas Handling.

Our application engineers are the best in the business. No matter what your application, we have worldwide experience in all kinds of industrial compressor applications. We can help you size and select the right compressor that will provide optimum results.

Standard and Custom Fabricated Compressor Packages Fit Your Process Requirements.

Whatever your compressor application, there's a Blackmer oil-free compressor that can meet your requirements:

- Single- or Two-Stage
- Water- or Air-Cooling
- Single- or Double-Acting
- Multiple Seal Configurations
- Custom Engineered Compressor Packages

So, no matter what your gas compressor requirements are, there's only one name to remember to get the single best approach to compressor performance: Blackmer.
